PRICE LIST – APRIL 2015

Chef's Pantry is a manufacturer, processor, distributor and contract manufacture and supplier of over 8,000 food and packaging products.

At Chef's Pantry, we've taken a progressive approach to providing fresh-cut and value added products with a strong focus on customer service and performance of our products. Backed by over 28 years of experience we can tailor a range of products perfectly suited to each customer's menu needs.

By out-sourcing your fresh-cut or value added products from Chef's Pantry you can focus your personnel where they can be used most cost effectively, and eliminate some of the inherent liabilities to the fresh-cut or the value adding process.

With Chef's Pantry's fresh-cut products, you will have a clear picture of the true costs of your finished products. If you are currently using frozen, canned or dehydrated ingredients think of the impact of high quality, fresh-cut vegetables or baked fresh foods in your recipes. Every Chef's Pantry product is guaranteed to meet your individual requirements

SOUS VIDE - COOKED MEAT

Sous Vide is French for "under vacuum" it is a method of cooking in which food is sealed in airtight plastic bags then placed in a water bath or in a temperature-controlled steam environment for longer than normal cooking times — 96 hours or more, in some cases at an accurately regulated temperature much lower than normally used for cooking, typically around 55 °C to 60 °C for meat. The intent is to cook the item evenly, ensuring that the inside is properly cooked without overcooking the outside, and retain moisture.

Shelf life 30+ days

JAMON BONELESS LEGS (FROM SPAIN)

Navidul is the most recognized brand name of Serrano ham throughout Spain. Each ham is evaluated individually with strict guidelines to assure quality, safety, and consistent product every time.

Each thin slice of boneless Navidul has a delicious aroma, a sweet flavour and a perfect intermingled marbling of fat that makes each slice melt in your mouth. Serrano ham as it should be: The authentic taste from Spain.

Iberico, De Bellota Navidul – 24+ months

135.70 kg

This luxurious ham is produced from the hind legs of the Iberico breed of pigs that have fed on acorns for the last three months of their life. After a careful aging process of minimum two years in bodega, the result is a sweet, marbled meat that melts on your palate. It is a ham that is absolutely worth trying

Navidul Serrano Samandy High Yield – 10 month

49.85 kg

Each thin slice of Navidul has a delicious aroma, a sweet flavour and a perfect intermingled marbling of fat that makes each slice melt in your mouth. It is an easy slice product. Serrano ham as it should be: The authentic taste from Spain.

WE ALSO SUPPLY PARMA PROSCIUTTO (FROM ITALY) (WEIGHT BETWEEN 6.5 AND 9.5 kg)

CHORIZO MANOLETE CONFIT (FROM SPAIN)

The chorizo is skilfully made using traditional methods and techniques that have been practised for hundreds of years and uses local expertise during the production process. Curing the chorizo for five weeks before preparing it in a confit of olive oil retains the authentic richness and intensity of flavour that is so uniquely Spanish. just slice it and fry until crispy, then add to pastas dishes or pizzas. It's also good through a Spanish omelet or paella.

WHITE ANCHOVIES IN VINEGAR 750 GM 36.00 EA

Soft, plump texture melts in your mouth, full of flavour without the hit of saltiness found in other brands. They might be small but these fish pack a huge punch in flavor that acts as a backbone to many Italian recipes. Anchovies cannot be ignored for long if you desire authentic Italian flavor.

Blue swimmer crab meat. Available in a retail tub or foodservice can. With a **chilled extended** shelf life. Consistent quality from one can to the next, eliminate waste and control inventory.

BLACK CYPRUS SEA SALT FLAKES 2 KILO BUCKET \$60.00 KG

These 100% natural pyramid shaped crystals have not been washed and filtered like other sea salts on the market, so all the natural minerals and flavours remain intact. Water is pumped directly from the Mediterranean Sea into ponds where the various elements; temperature, wind, humidity and light allow the water to dry perfectly into the unique shape. Beautiful to look at and with the right 'crusty' feeling when crushed between the fingertips and sprinkled onto food, this is a perfect **finishing and roasting salt**.

The colour derives from activated charcoal powder which is simply burnt wood that has had all its oxygen removed. It is a product with a unique appearance and zero fragrance. Try it on white fish or chicken, or as a dipping salt with bread and top quality olive oil.

MURRAY RIVER PINK SALT 14 x 400 GM \$10.50 EA

This pure ancient sea salt contains no additives or preservatives, but is loaded with natural minerals and elements such as magnesium and calcium. These natural mineralized brines give the salt a lovely pink colour, as well as a unique and delicious flavour. Place in a small finger bowl and sprinkle over meals prior to eating

SAFFRON –IRANIAN SARGOL 15 GM \$128.00 PER TIN

Simply the best quality you will find. Pure Saffron stamens - this product will last longer and give you a more intense colour and flavour. There are only three criteria you must look for every time you buy saffron:

- Saffron threads (Stigmas) are all red (no other colour).
- Saffron threads must be dry and brittle to the touch.
- Saffron aroma is strong and fresh, never musty.

SPICE MIXES & BLENDS - GLAZES – SEASONINGS – SPRINKLES – RUBS AND MORE

SPICE/GLAZE - NATURAL

Flavour Makers pride ourselves on being at the forefront of innovation and quality food ingredients: we strive to maintain our leading edge with excellent products for the discerning customer. The issues of quality, integrity and health drive consumer demand for natural products. Manufacturers/retailers need to give their customers what they are asking for - authentic flavour, quality and convenience, whilst reducing the use of artificial enhancement.

Flavour Makers are very pleased to introduce our 'NATURAL' range to our customers and ultimately the consumer. Our Culinary Development Team has reformulated our Spice/Glaze range, resulting in a natural approach to our products whilst maintaining or improving their authentic flavour and excellent appearance. These Natural Spice/Glazes are free from artificial flavours, colours and preservatives and have simpler ingredient declarations. We believe that these key selling points can only benefit your sales and improve customer relationships.

Spice/Glaze Definition - These NATURAL products have been developed for a dual application; dry application (Glaze) and as a wet application (Spice).

SPRINKLES / RUBS / SEASONINGS - NATURAL

A NATURAL blend of functional ingredients which when sprinkled onto meat portions, over a short period of time begins to adhere and re-hydrate, by drawing some of the juices from the meat forming a coarse colourful coating pleasing to the eye. Does not contain any artificial flavours, colours or preservatives. Sprinkles can be added to plain or coarse breadcrumbs at a ratio of 1 part sprinkle to 5 parts crumb, to create an interesting coating for schnitzels or rissoles.

TRUFFLES TASMANIAN / WA – BLACK PERIGORD

We have other truffle products available during the year please contact us for what is on offer . Truffles, of which there are over 70 varieties, may be thought of as underground mushrooms with a unique, pungent flavour. Strongly aromatic, they are eagerly sought after by chefs world-wide.

What is a Black Truffle? Black Truffles have been highly sought after by fine chefs, food lovers and entrepreneurs since they were first discovered in Perigord many centuries ago. The French Black Truffle is the fruiting body of the fungus *Tuber Melanosporum* that forms a symbiotic relationship with the roots of oak or hazel trees on which it grows. The edible portion, the truffle, is harvested in winter once it has matured and is emitting the sweet perfume it's renowned for.

The Black Truffle offers the best combination of taste and texture with a proven track-record of successful cultivation under Australian conditions. However there is a range of other varieties, some of which look similar, but few of which (excepting the white truffle) have a comparable aromatic or culinary appeal.

Pastry Products Frozen

It's simple; -Defrost at room temperature for approximately 20 minutes (until product starts to soften). Place product in a humid proofer at 28° C for 90 minutes or until it is ready for your baking requirements. Alternatively, cover with a damp cloth (to avoid going dry) and leave overnight at room temperature.

Baking - Pre-heat oven to required temperature (170° C – 200° C) before inserting product.
- Place tray in pre-heated oven and bake until golden brown (15 – 20 minutes).
